Brand History

REYALE in the present-time has become a name to reckon with. It is not only considered as the foremost manufacturer & supplier of Architectural Hardware, High Level Security Solutions in India, but is also looked upon as an Organization/Entity of Class-Quality-Commitment-Trust.

The organization which was initiated by Mr. SHAFIQ UR REHMAN SAIFEE: Founder & MD of MALIK ENTERPRISES, in the year 2013 with a humble initial investment of Rs. 1 cr, and with a passion & desire to come up with something uniquely creative and made with world class technology, today has victoriously made its presence felt in India and abroad. MALIK ENTERPRISES has indeed come a long, successful and glorious way to be considered as an epitome of 'Class & Quality'... and its success-story is considered as the most genuine material for Case Studies (for business success & transformation), by many across the industries.

Company

MALIK ENTERPRISES is a young dynamic company offering Architectural Hardware Solutions through a wide range of standard and customized products. A solution centric approach has enabled us to grow from strength to strength and becoming India's most popular Architectural Hardware Solution provider. Our focus on international standards has enabled us to establish a state-of-the-art manufacturing facility and simultaneously raise the entire work ethics as per global standards and best practices. We have a team of in-house architects and product designers who understand the design intent of our customers and after combining it with value engineering and practical utility, we try to deliver desired results at the right value. Our strong R&D and quality team ensures that the products adhere to stringent quality benchmarks. Customers form an integral part of our value system. A dedicated customer care and logistic network backed by SAP and a strong IT support enable us to supply products and services in time with proper after sales support. Malik Enterprises manufacturing facility is a combination of modern CNC and robotic machines along with automatic finishing lines, which allow us to offer high quality with consistent finish in our stainless steel products. We have invested heavily in energy-efficient and pollution control measures as a part of our social responsibility. At Malik Enterprises, stress is also laid on following the international HR Standards. Child Labor is strictly prohibited in all divisions of the company. The company also takes special care in waste disposal and thereby adheres to environmental friendly techniques in Production.

One Side Key Cylinder

Euro profile key and knob cylinder can be operated with the help of key from one side and with a thumb turn knob on the other side. This function of the cylinder provides controlled access of the door from one side with the key and easy access with a knob on the other side. The key and knob cylinder is suitable for locations which require controlled access from one side and keyless access from the other side.
